INTERNATIONAL CONFERENCE ON **FATTY LIVER**

Vienna, Austria
28-30 April 2022

+ VIRTUAL

A Multidisciplinary Approach

It is our pleasure to invite you to the 3rd International Conference on Fatty Liver (ICFL 2022) taking place 28-30 April 2022 in Vienna, Austria and Virtually.

If you are not able to travel but you don't want to miss the latest discoveries in the field of Fatty Liver, the new Virtual registration category will allow you to access all sessions from the comfort of your home or workplace for up to 3 months after the Conference days.

Be part of the only multidisciplinary event that focuses on unifying the global knowledge of Fatty Liver. This unique platform will provide the opportunity to exchange research and experience in an international setting, allowing for advancements in diagnostic and therapeutic modalities.

ICFL 2022 is designed for professionals in the fields of Hepatology, Gastroenterology, as well as Diabetology, Nutrition, and Cardiology, who are eager to help shape the future of Fatty Liver and improve the lives of patients.

The CME accredited scientific program will explore what is new in diagnostics and therapeutics modalities and will bring together a wider community to network and share knowledge.

The Conference will provide access to a wide spectrum of data and research from a multidisciplinary point of view and will offer training opportunities and Master Classes.

As the only event of its kind, it is important that you and your colleagues take part in the discussion. Progress is happening and we need to work together to accelerate the pace.

We look forward to meeting you in Vienna or Online!
